- Type of connector : angled

## SPECIFICATION

Extraction duct.

- For 'gray' and 'black' wastewater tanks. These lines are compatible with manual or electric diaphragm pumps, as well as with direct connection to a bridge inlet.
- They are available with 38 mm diameter fittings, and you can choose between elbow or straight connections.
- Tubes are available in two lengths: 370 mm or 780 mm, and can be easily cut to the precise length you need.
