- Model : M8
- Weight : 42 kg
- INITIAL_LETTER_SCHEMA_A : 710 x 710 mm
- INITIAL_LETTER_SCHEMA_C : 900 x 900 mm
- INITIAL_LETTER_SCHEMA_B : 790 x 790 mm

SPECIFICATION

Horizontal or vertical mounting

- Cast aluminium construction with anti-corrosion treatment
- Reinforced diaphragms under the panel to prevent distortion under heavy load
- The moving parts, as well as the 2-finger closing mechanism, are made of A316 stainless steel. The closing mechanism, embedded in the panel, leaves a perfectly flat bridge or wall
- Easy and quick opening of the panel: just lift the handle and turn it 90
- Built-in handwheel underneath the panel, allowing opening and/or closing from the inside
- Aluminium frame, to be bolted on (or welded directly if the boat is made of aluminium)
- All Hercules deck hatches are tested to pressures equivalent to 25m depth and are fitted with neoprene seals, resistant to fuel and chemicals

- Dimensions A (mm): 710 x 710
- Dimensions B (mm) : 785 x 785
- Dimensions C (mm) : 900 x 900

Optional:

- All panels can be fitted with hinges
