Windlass relay box 12 V - 2000 W

Réf : **RLG122000**

MZ contactors and variable speed drives are control devices for 2, 3, or 4 wire DC motors. The pre-assembled group makes electrical connections quick and easy. Available in various versions to meet all requirements and low consumption, powered from 10 to 30 VDC, the contactors are shock and marine corrosion resistant due to their self-extinguishing polyester resin housing with IP 56 rating.
