SPECIFICATION

The **photoluminescent chevron tape** is a highly visible marking solution designed for environments where low-light signage is essential. It is a flexible, self-adhesive material whose luminous performance exceeds the requirements of DIN 67510 Part 1.

Available in three functional colours:

- **Red:** Indicates a hazard or restricted area — ideal for preventing accidents.
- **Green:** Identifies escape routes or safe pathways.
- **Black:** Used to mark equipment or restricted zones without disrupting the visual environment.

Available sizes:

- 40 mm × 10 m
- 80 mm × 10 m
