- Protection rating : IP67

SPECIFICATION

The VDO Viewline rudder angle indicator is a high-precision solution for monitoring your boat's rudder angle. Supplied with an integrated sensor, this indicator is ideal for installations requiring a clear and reliable reading, whether for a single or double helm station. For a dual-station installation, we recommend using a special dual-station sensor with a second display.

The VDO Viewline features a compact display, designed for easy integration into your dashboard. The red backlighting ensures optimum visibility in low-light conditions, enhancing safety and comfort when navigating at night.

This product is specially designed for professional sailors and demanding yachtsmen, offering unrivalled accuracy and reliability. Choose the VDO Viewline rudder angle indicator for optimum management of your boat.
