Dangerous material : non

Weight : 15,00 kg.

SPECIFICATION

Yachting Series

A complete range of 12/24/220 V filtration units from 450 to 1350 l/h.

These units allow the optimisation of fuel by removing all traces of water, bacteriological contamination linked to additives or the use of biofuels. By delivering a quality fuel, they increase the life of the pre-filtration and obtain maximum performance from your engine.
