CARACTERISTICS

FAN COIL EVA 13 DRY PAN J + S.H. 1300W
Réf. **MEVA13EJ**

Dangerous material : non
Weight : 8,70 kg.

- Capacity : 1300 W
- Dimensions : 365x280x296 mm
- Consumption : 235 W
- Flow : 537 m³/h
- Length : 365 mm
- Weight : 8.7 kg
- Depth : 296 mm
- Power : 13000 BTU/H
- Height : 280 mm

SPECIFICATION

Quiet, easy installation and maintenance

- Version with electric heater
- Wide range of sizes from 3,000 to 24,000 Btu/h
- Unique dry filtration principle ensures that the condensate tray is fully drained even when inclined
- Powerful and quiet ventilation, with the possibility of optimal alignment to improve airflow
- Standard anti-vibration mounting system
