

Norsap 1600M pilot chair - height 740/990mm

Réf : **8700**

The Norsap 1600 Standard represents a solid, comfortable collection, perfectly suited to demanding environments. Compact in size and easy to install, it features a height-adjustable footrest that can be folded away. Its oval flanged column offers a substantial footprint with four fixing points, ensuring secure attachment to the deck. This design is specially conceived to integrate with the Active or Impulse deck rail, available in flush-mounted or surface-mounted versions.
