CARACTERISTICS

RESIN BEARING 50MM X 2-5/8"

Réf. **BAG506667R**

Dangerous material : non
Weight : 0,41 kg.

- External diameter : 2-5/8 ""
- Internal diameter : 50 mm
- Length : 200 mm
- Material : Phenolic resin

SPECIFICATION

Resin bushings are products used in various industrial and mechanical applications to provide effective lubrication. They are made from a special resin, usually polymeric, which has lubricating properties when in contact with water or other liquids.
