- Outlet diameter : 90 mm
- Inlet diameter : 90 mm
- Length : 515 mm
- Model : NLP
- Weight : 2.5 kg
- Height : 362 mm
- Width : 210 mm

SPECIFICATION

NLP waterlocks are of dual stage construction featuring upper and lower chambers with a horizontal partition plate and a riser tube through the centre. The installation of the exhaust system, even in confined engine spaces, is greatly simplified due to the 360º rotating top chamber and both in- and outlet connectors. Upper and lower chambers offering a superior silencing of exhaust noise. Provided with drain plugs. For optimum silencing of exhaust noise you can also use a VETUS muffler and gooseneck, after the waterlock.

Including mounting brackets for bulkhead or floor mounting.
