CARACTERISTICS

POWER DISTRIBUTOR "WHISPERSWITCH AC 10" WHISPERPOWER 10 KW / 230 V 1-PHASE

Réf. **WP50214671**

Dangerous material : non
Weight : 0,25 kg.
Catalog page : 281

- Nominal current : 42A
- Protection rating : IP23
- Model : Whisper Switch AC 10
- Weight : 1.7 kg
- Depth : 100 mm
- Power : 10 - 10 kW
- Height : 240 mm
- Width : 210 mm

SPECIFICATION

The Whisper Switch AC is an automatic transfer switch designed to supply your installations from three distinct sources: shore power, generator, and inverter. It ensures smooth and safe switching, guaranteeing continuous and reliable power on board. Equipped with three output circuits with different capacities, it easily adapts to any type of installation. For added flexibility, two Whisper Switch units can be installed in parallel. Safety is enhanced by an integrated residual current protection against leakage currents, eliminating any electrical risks. Compatible with WP-ShoreConnect and WP-GI isolation transformer solutions, it provides a 100% safe plug & play connection.

- Automatic switching between 3 power sources
- Residual current protection against leakage
- Quick, modular installation for single- and three-phase setups
- Optimal reliability and safety for marine and mobile applications
