

Power distributor "WP- AC TransferSystemSwitch" WhisperPower 5, 5 kW / 230 V 1-phase

Réf : **WP50214690**

These analogue switching devices are able to feed the onboard power supply from three different sources: shore power, generator and inverter. There are three output circuits, available with different capacities. As an alternative solution, it is also possible to install two standard WhisperSwitches. Switch from shore to generator Switch between generator and inverter
