SPECIFICATION

Our new Stainless Steel Fire Plan holder is a watertight container that stores a copy of a fire plan and/or an escape route plan and has been specifically designed to comply with the requirements of the SOLAS regulations. It has a length of **980mm x 80mm dia**. **(2.2kg)**, enabling Fire Plans up to size **A0** to be accommodated without the need to fold the plan. A red coated, watertight stainless steel construction with a metal screw cap end for enhanced durability, which is clearly visible yet robust and suitable for harsh marine use.

""Fire and safety plans must always be exhibited for the guidance of the ship's crews showing clearly for each deck as required by the SOLAS Chapter II Reg. **15/2.4.1 and 2.4.2.""**

Features:

- Suitable for all the standard fire plan sizes
- Watertight/marine environment resistant.
- Comes with photo luminescent ""Fire Plan"" sign 6796JJPV and wall mounting brackets
- Easy to install and mount
- As default the ""FIRE PLAN"" vinyl decal will be applied in landscape orientation, however upon request they can be applied vertically to correspond with your installation requirements

Package contents:

- Fire Plan Container

- Wall mounting brackets (*please note fixings not included – x 4 M8 size bolts required)

Benefits:

- Will last your ships lifetime
- More durable than UPVC containers
