SPECIFICATION

With a simple or reinforced sheath with anti-abrasion treatment, they provide optimum support while offering maximum protection. Thanks to our traceability label, you can be sure of the origin and quality of our products. Rely on our slings for safe, reliable solutions in all your applications.

Essential information to bear in mind:

Safety is paramount and depends on proper use of the product. Please refer carefully to the user manual supplied with the equipment. If necessary, we can match your slings to ensure a uniform length to suit your specific requirements or site.

The values supplied, such as weights, are indicative and may vary according to manufacturing methods and our sources of raw materials.

To guarantee optimum quality, we are able to subject all our products to fatigue and load tests on our test benches, even for the highest capacities. So you can have complete confidence in our products.
