Gelomat for varnish 250 ml

Réf : **TOKG140**

GELOMAT is a thixotropic additive designed to give a matt or satin effect to the traditional ""Le Tonkinois"" marine varnish. It is mixed with the last finishing coat, and a dosage of 25% will produce a satin finish, while a dosage of 50% will produce a matt finish. Be sure to shake well before use for best results.
