CARACTERISTICS

SEA WATER PUMP FOR FRIGOMATIC REFRIGERATION SYSTEMS

Réf. **A092819C**

- Capacity : 6 L/min
- Model : Self priming pump 12V

Dangerous material : non
Weight : 2,07 kg.
Catalog page : 207

SPECIFICATION

Its amperage is minimal (less than 1A at 12 V) and it is designed for continuous service. It is self-priming up to 2 mt and particularly quiet. It can be used to cool more than one Frigomatic condensing unit, up to 3 (by adding a pump interface or a pump relay).
