CARACTERISTICS

GEL OPZV BATTERY 2 V 440 AH - WHISPERPOWER

Réf. **WP40290037**

Dangerous material : non
Weight : 97,00 kg.

- Capacity : 440 Ah
- Charge current : 150 A
- Length : 145 mm
- Model : 40290037 - GEL Battery 2 V - 440 Ah
- Weight : 33 kg
- Height : 506 mm
- Width : 206 mm
- Battery terminals : 2 x M8
- Battery technology : gel

SPECIFICATION

WhisperPower OPzV valve regulated batteries are ideally suited for applications with extended deep charge / discharge cycles. They are fully maintenance free. WhisperPower GEL batteries are constructed using tubular plate technology, wherein the electrolyte is contained in the GEL. They are widely used in emergency / back-up power supplies, marine and mobile battery banks and UPS installations.

- Designed to last for over 10 years
- Suitable for high charge current (50% of nominal capacity)
- Ideal battery for large battery banks (600 to 8000 Ah)
- Best option for intensively used heavy duty inverter(s)
- Suitable for a large number of charge cycles (1200 to 3000 depending on dis- charge level)
- Whilst vertical installation is recommended (horizontal installation can be ordered on request)
- Cables to connect the individual 2 V cells together are supplied as standard
