CARACTERISTICS

GEL OPZV BATTERY 2 V 1650 AH - WHISPERPOWER

Réf. **WP40290044**

Dangerous material : non
Weight : 74,00 kg.

- Capacity : 1650 Ah
- Charge current : 600 A
- Length : 275 mm
- Model : 40290044 - GEL battery 2 V - 1650 Ah
- Weight : 120 kg
- Height : 820 mm
- Width : 210 mm
- Battery terminals : 4 x M8
- Battery technology : gel

SPECIFICATION

WhisperPower OPzV valve regulated batteries are ideally suited for applications with extended deep charge / discharge cycles. They are fully maintenance free. WhisperPower GEL batteries are constructed using tubular plate technology, wherein the electrolyte is contained in the GEL. They are widely used in emergency / back-up power supplies, marine and mobile battery banks and UPS installations.

- Designed to last for over 10 years
- Suitable for high charge current (50% of nominal capacity)
- Ideal battery for large battery banks (600 to 8000 Ah)
- Best option for intensively used heavy duty inverter(s)
- Suitable for a large number of charge cycles (1200 to 3000 depending on dis- charge level)
- Whilst vertical installation is recommended (horizontal installation can be ordered on request)
- Cables to connect the individual 2 V cells together are supplied as standard
